- **Adaptable solution** - Wifi enabled, add more cameras as needed
- **Easy to install**
- **Compatible with DeLaval RFC**

With the DeLaval Farm Monitoring Camera system, you can keep an eye on what matters most to you from any smartphone or computer. This scalable and flexible solution allows you to monitor virtually anything: milking machines, automatic feeders, calving pens, VMS, even your diesel tank or supply area. The FMC-IP1 is also durable - designed to withstand the dirt, dust and humidity of barns, as well as the weather extremes of the great outdoors.

Contact your DeLaval Dealer to order your camera today!
